Primary Examiner  
Art Unit: 2833

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

**Claim 9** has been amended as follows:

Claim 9 (amended): A controller for medium voltage electrical equipment, said controller comprising:

a first switch contact electrically connected to a bus connector;

a second switch contact electrically connected to a fuse holder;

a disconnect switch having a first switch blade electrically connecting said first and second switch contacts when the disconnect switch is in [the] a closed position;

a housing for enclosing said first and second switch contacts and said first switch blade, said housing defining a window for viewing said first and second switch contacts and said first switch blade for visually determining [the] an open or closed state of the disconnect switch; and

a lamp for illuminating said first and second switch contacts and said first switch blade.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Larry Shrout on October 30, 2003.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The switch of Cox, et al. '161 comprises a window for viewing the contacts, but no lamp.
